

General

The PS110/20 is designed for use with the ELPRO 900 series telemetry modules. The power supply is a 110 Volt AC pack that mounts directly into a wall mounted power outlet.

This power supply provides a simple solution to mains power supplies and does not require an electrician for installation.

Always consult the module User Manual for full information on power supplies and connections.

PS110/20

Specification

Type	Wall adapter
Approval	UL – E135456
Primary voltage	110 Volts AC
Frequency	60Hz
Secondary	20 Volts DC / 450mA (Unregulated)
Construction	Black molded PVC
Color	Black
Output cord	Twin / 24AWG
Polarity	Stripe + Ve

Telemetry made easy by
