VEGAPULS 65
4 ... 20 mA/HART two-wire

Radar Sensor for Continuous Level Measurement

Application Area
VEGAPULS 65 is suitable for applications in liquids in smaller vessels under easy process conditions. The application possibilities can be found in virtually all areas of industry.

Advantages
- Non-contact measurement
- Simple mounting
- Wear and maintenance-free
- Unaffected by pressure, temperature, gas, and dust
- High accuracy

Function
Extremely short microwave impulses are emitted by the antenna system in the direction of the measured product, reflected by the product surface, and received back again by the antenna system. The time from emission to reception of the signals is proportional to the level. A special processing procedure ensures reliable and precise measurement.

Materials
The wetted parts of the instrument are made of PVDF, 316L, or PTFE. The process seal is made of FKM.

Housing Versions
The housings are available as single chamber or double chamber version in plastic, stainless steel, or aluminum. They are available in protection ratings up to IP 68 (1 bar).

Electronics Versions
The instruments are available in different electronics versions. Apart from the two-wire electronics with 4 ... 20 mA/HART, a four-wire version and two purely digital versions with Profinbus PA and Foundation Fieldbus are available.

Approvals
The instruments are suitable for use in hazardous areas and are approved according to FM, CSA, ATEX, and IEC. The instruments also have different ship approvals such as GL, LRS, or ABS.
Operation

The adjustment of the instrument is carried out via the optional indicating and adjustment module PLICSCOM or via a PC with the adjustment software PACTware and respective DTM. Further adjustment options are available via HART communicator as well as manufacturer-specific programs such as AMS™ or PDM.

Electrical Connection

Electronics and connection compartment, single chamber housing

1  Voltage Supply/Signal Output
2  For Indicating and Adjustment Module or Interface Adapter
3  For External Indicating and Adjustment Unit
4  Ground Terminal for Connection of the Cable Screen

Dimensions

Dimensions VEGAPULS 63

1  Threaded Version G1½ A
2  Flange Version DN 80

Information

You can find additional information about VEGA product offerings from our home page, www.vega-americas.com. Brochures, operating instructions, quick reference guides, specification sheets, and drawings are also available from the Downloads section of our homepage.

Device Selection

The Downloads section of our home page, www.vega-americas.com provides application data sheets so you can select the measuring principle or product for your particular application.

Contact

Please call 1-800-543-8668, Monday through Friday, 8:00 A.M.-5:00 P.M., EST (Eastern Standard Time) if you have any questions. For emergencies after hours, call the number above and follow the voice mail instructions.
